Dear EM EFP Holder,

One of your responsibilities under the EFP is to provide logbook info and video hard drives to PSMFC. To help make the distribution process as smooth as possible, we need contact information for the skippers and owners. This contact information will also be used to distribute feedback to vessels when necessary. If you anticipate having multiple skippers operating your vessel this season, please provide contact information for each skipper.

**Logbooks:**

If you need a new PSMFC EM logbook, please email [EMEFP@psmfc.org](mailto:EMEFP@psmfc.org) or call Carol Barstow at 503-595-3100 during business hours. Include the individual's name, vessel name, and which address you wish the logbook to be sent to.

**Hard drives:**

Options for hard drive distribution:

1. The vessel carries a number of hard drives and PSMFC sends hard drives directly to the vessel's preferred address.
2. Your dealer keeps a number of hard drives for any EM vessels that choose this option, and PSMFC sends hard drives to the dealer.

Please provide contact information for your dealer if you are choosing the second option. As with logbooks, if you or your dealer are running low on hard drives, email [EMEFP@psmfc.org](mailto:EMEFP@psmfc.org) or call Carol Barstow. Include the individual's name, vessel name, how many hard drives are needed and which address you wish the hard drives to be sent to.

If there is other information you think we will need, please include it along with this form. You, as the EFP permit holder, are ultimately responsible for ensuring you have logbooks and hard drives to comply with the EFP. We can only help you if you help us first. Feel free to contact me with any questions.

Sincerely,

David A. Colpo  
Senior Program Manager
